## Music Creation and Mixing Software

If you're serious about making your own music, ACID® Music Studio software is the perfect tool for original song creation, multitrack audio and MIDI recording, studio-quality mixing, and effects processing. Share your songs any way you want—burn your own CDs, upload to the web, prepare audio for podcasts, or export to your MP3 player. With built-in tutorials to guide you, you'll be composing, mixing, and mastering like a pro in no time.

### Music Creation Made Easy

- Simple brush tool “paints” music into tracks
- Edit music using basic commands such as cut, copy, and paste
- Interactive *Show Me How* tutorials actually show you what to do

### Compose New Music with Loops

- Loops are samples of performances, edited to repeat seamlessly in your composition
- Includes more than 3,000 ACIDized® loops in nearly every genre
- Over 100 collections of add-on loops available

### Studio Multitrack Recording

- Capture multiple instruments and vocals, each on its own track
- Unlimited tracks for audio and MIDI
- Complete control over volume, panning, and effects on each track

### Complete MIDI Support

- Record and edit MIDI note and controller data and assign it to any instrument
- Supports VSTi and DLS virtual instruments
- Includes over 1,000 MIDI files and 90 instruments for song creation

### Professional Audio Effects

- Built-in effects include EQ, reverb, delay, chorus, flange, phase, distortion, and echo
- Use VST effects and instruments and DirectX effects
- Add pan and volume envelopes, reverse audio, and change the pitch and tempo of your mix in real time
