

To Install Garritan ARIA for ACID Pro

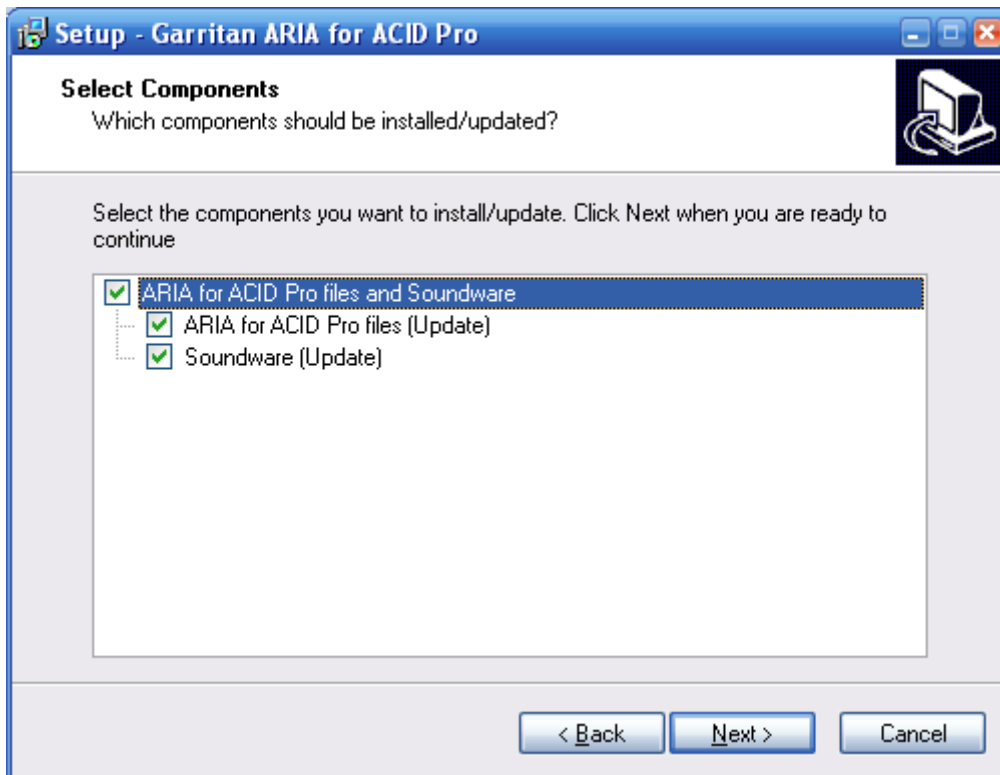

1. Select Install Garritan ARIA for ACID Pro in the ACID Pro 7 Additional Content installer wizard:

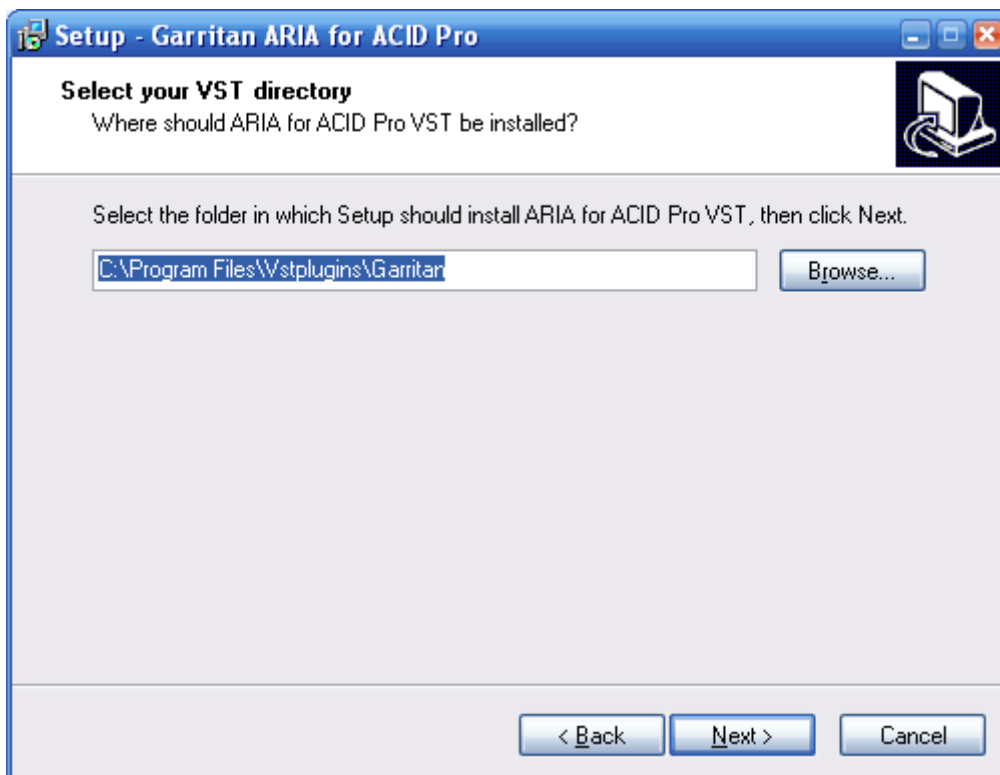

2. Next, you will see the setup Welcome screen. Click 'Next'
3. Enter information for Name and Company. 'Name' is a required field
4. Agree to the License Agreement

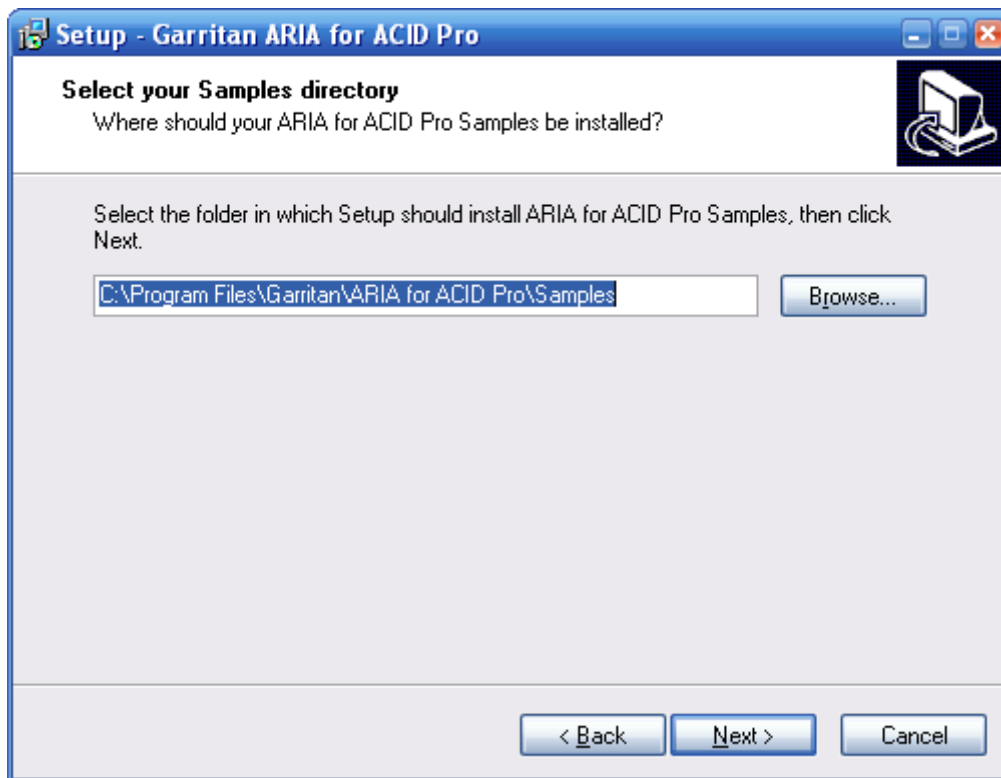

5. You can install all available components.

6. Use default path for installation (usually C:\Program Files\Vstplugins\Garritan)

7. Install ARIA for ACID Pro Samples to default location (usually C:\Program Files\Garritan\ARIA for ACID Pro\Samples)

8. Continue selecting 'Next' through the remaining of the prompts using default settings. The installer will unwrap files from the DVD and install to your computer. The installation may take several minutes.
9. You will know that the software is installed correctly as you will see this message:

10. Click OK and then click Finish to exit the Garritan ARIA installation Wizard.
